**Subject:** Special Thanks

Hi Jonathan,

We are still feeling dreamy after the wedding. We wanted to thank you for your efforts, we loved the décor. We received many compliments on how special the evening was. The Ice cream bar carved out of ice was a hit!

I remember how determined I was not to engage a planner as I really wanted to enjoy the wedding preparation process.

But I'm glad we eventually had you to guide us for the ballroom décor and the actual day coordination. I was amazed that though we engaged you a mere 2 months before the wedding, you were able to deliver as promised. What I found particularly useful was to have someone who was familiar with the wedding proceedings to give us advice on things to look out for during the planning process.

Once again thanks for being part of our wedding and for all the help and support rendered.

Cheers  
James and Melissa
